

HT8/80/15

HT8/80/15 is the high tensile equivalent to C8/80/15. This fence is the most popular high tensile specification. HT8/80/15 is a very strong and versatile fence that can withstand heavy stock pressure.

High tensile fencing can be strained tighter than mild steel and therefore requires less intermediate posts. It does not stretch like mild steel and is a far stronger option. Because of the need for less posts, high tensile fencing is quicker to erect and can be a more cost effective fence than mild steel.

Line wires	8
Distance between vertical wires	15cm
Height	80cm
Top and bottom line wires	2.5mm - 1235-1390 N/mm ²
Intermediate line wires	2.5mm - 1235-1390 N/mm ²
Vertical wires	2.5mm - 695-850 N/mm ²
Roll lengths available	100m, 200m, 250m
Weight of 100m roll	60kg

SPACING BETWEEN SUCCESSIVE HORIZONTAL WIRES FROM THE TOP	8 / 80 / 15 ----150mm---- -----6"----- VERTICAL SPACING
152mm	
140mm	
131mm	
114mm	
102mm	
83mm	
83mm	

Manufactured to BS EN 10223. Galvanised to BS EN 10244 Class A
